

Ultra Plug® Dust Plugs

**Air and water pile stoppers
die-cut into any shape**

- Multiple strips of pile weatherseal cut to size for your specific dustplug application
- Eliminates the need for costly metal-backed dust plugs
- Fins can be placed in any or all rows of pile for desired sealing performance
- Solid polypropylene and pile/fin directors provide a rigid base with no need for an additional metal backing
- Pile height and backing width are always uniform because of ULTRAFAB's unique non-woven manufacturing systems
- Ultra Plug® dust plugs have the structural integrity and consistency which assures a tight seal and barrier against air and water infiltration
- ULTRAFAB's unique ultrasonic welding assembles the fin, fibers and backing into an integrated, unified assembly that won't break apart during fabrication or while in use
