

## DOOR BOTTOM SWEEPS

### Door bottom mounted weather barriers designed for heavy duty usage

Ultrafab's aluminum mounting bracket assembly allows for proper height and positioning that minimizes air flow and water penetration. The polypropylene filament and fin combination is flexible; yet strong; allowing for longer usage and no tearing that might occur in other door sweeps.

### DOOR BOTTOM SWEEPS FEATURES:

- Reduces or eliminates air and water penetration
- Adjustable aluminum mounting bracket allows for maximum sealing location at door bottom
- Flexible filament and fin combination allows for sealing flexibility, which reduces tearing and sealing failure over extended use
- Ultrasonically welded polypropylene filament and fin assembly for industry leading durability and longevity
- Easy installation
- **Colors:** Black, white, grey, filament/fin colors
- **Bracket Combinations:** Flush mount, bottom mount and right angle mount
