

# Ultrafab's Urethane Foam Door Seals

## THE INDUSTRY'S NEW AND MOST RELIABLE SOURCE FOR STANDARD DOOR SEALS

**Ultrafab** is proud to offer high quality standard door seals: urethane foam door seals. Some benefits of Ultrafab's new urethane foam door seals include:

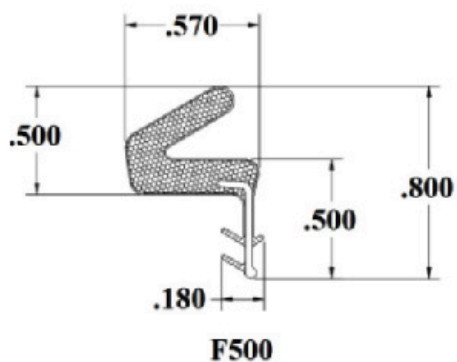

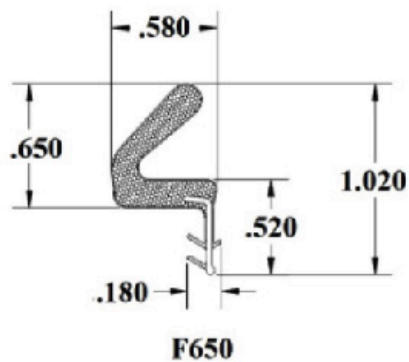

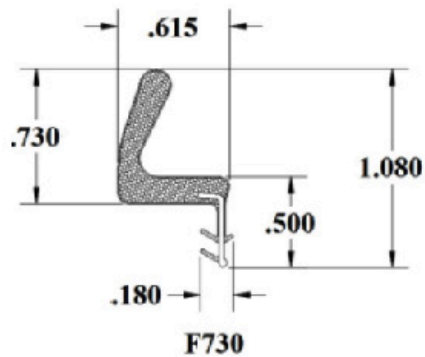

- Exterior embossed cladding made from high quality UV stabilized PE film. Excellent weatherability, wear-resistance and long-term color stability
- PU foam interior providing a controlled closing force, excellent resiliency, and minimal loss of functional height over time
- Exposed TPE barbs allowing for ease of insertion and quick removal and reinsertion during the finishing of the door frame
- A decades-proven design that effectively reduces noise, eliminates dust, water and air movement
